NUMBER OF REGISTERED VEHICLES IN US	CAR OWNERSHIP STATISTIC	INCREASE
Number of registered vehicles in US 2022	290.8 million	+1.3 million
Number of registered vehicles in US 2021	289.5 million	+2.6 million
Number of registered vehicles in US 2020	286.9 million	+2.4 million
Number of registered vehicles in US 2019	284.5 million	+5.2 million
Number of registered vehicles in US 2018	279.1 million	+5.7 million
Number of registered vehicles in US 2017	270.4 million	+6.4 million
Number of registered vehicles in US 2016	264.0 million	+6.1 million
Number of registered vehicles in US 2015	257.9 million	+5.3 million
Number of registered vehicles in US 2014	252.6 million	+3.7 million
Number of registered vehicles in US 2013	248.9 million	+0.2 million
Number of registered vehicles in US 2012	248.7 million	***

2. Industry Overview – VIO Increasing

According to S&P Global Mobility statistics, the average age of cars on the roads in the United States has risen to 12.5 years in 2023, reaching an all-time high year by year. Since 2019, the average age of vehicles has been steadily increasing, with a significant surge of three months this year. While 12.5 years represents the average age level, there are more vehicles still operating on the roads for 20 years or even longer, sometimes with three or four consecutive owners. The ever-increasing lifespan of cars is creating continuous growth opportunities for the automotive aftermarket repair industry.

Note: Data as on January 1 of each year

AM market share and advantages

Y.C.C. AM plastic parts market share and advantages

advantages

- ★ Develop more than 30 years in AM market, with over 2,000 tooling
- ★ Own tooling house, speed up development and maintenance
- ★ Adequate product types, and develop new tooling every year.
- ★ Introduce automatic and semi-automatic production, increase productivity
- ★ All products are made in Y.C.C. with strict quality control

4. R&D center profile

R&D area layout and position

Independent research and development of auto parts and automation / intelligent equipment

Master the core technology of manufacturing

5

Competitive Advantages

5. Competitive Advantages

1. Capable of developing plastic materials.
2. Automation of key processes.
3. Have the ability to develop mold and design automatic facility
4. Adequate product types to meet customer needs.
5. The cumulative number of mold developments has been scaled,
and the industry has a high barrier to entry.
6. Diversification of operations and expanding market presence

5. Competitive Advantages

Production technology:

1. Injection technology
2. Coating technology
3. Chroming technology
4. Mold technology
5. Automated design technology

Management technology:

1. Production management
2. Fast delivery management
3. Supply chain management

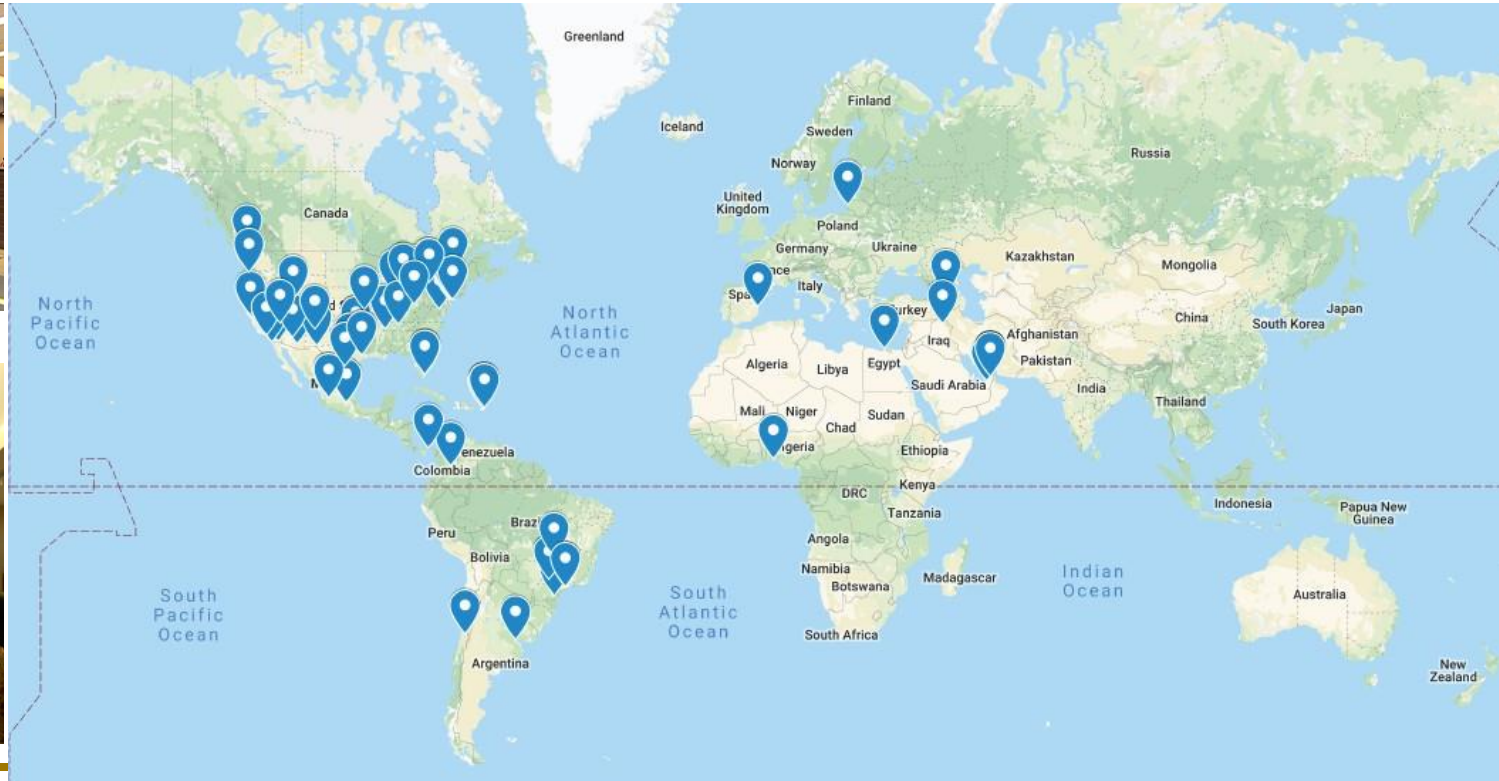

Marketing:

1. Customer development
2. Shipping management
3. Customer relationship management

5. Competitive Advantages

Global marketing team & import partners

6

Expanding Strategies

1. Optimize Producing Process
2. Reduce Transport Manpower
3. Environment Maintenance Meets Global Trends.
4. Improve Packaging Efficiency
5. Established development center - develop manufacture core technologies

6. Expanding strategies

1. Optimize Producing Process

- laser cutting & automatic packing machine

2. Reduce manpower

- Automated warehousing, saving labor and improving efficiency

3. Global environmental trends

- waterborne painting process
- Build sewage treatment plant

4. Saving Cost

- Self made high strength woven bag
- Process optimization.

5. Automation Production & intelligence equipment

- Master the core technology of manufacturing

7.Future Plan – Goal and Vision

1. **Y.C.C.** Become one of the major suppliers in global automotive parts (AM & OE) market.
2. **Y.C.C.** Being the best choice of every customer.
